

Purpose Driven Partnerships.

Meaningful Experiences.

Lasting Impact.

Birthday Bash Box is an educational birthday nonprofit that uses excitement to spark a love of reading in children since 2018.

Through our **Birthday Box Program**, children receive toys, party supplies, and books all tailored to their interests. Through our **Book Bash Program**, we expand those interests, turning a school or community space into a celebration of reading for hundreds of children at once, with read alouds, hands on educational activities, and shelves of books where every child picks what they want and takes it home.

A Birthday Box meets a child at their interests. A Book Bash widens them, sending children home curious about subjects they had never encountered before.

Our Programs are Rooted in Research

Allowing students to make choices about their reading material increased the likelihood that they would engage more in reading.

Worthy & McKool (1996), cited in *Reading Rockets*, *Reading Motivation: What the Research Says*.

...learning comes not from quiet classrooms... but from [environments] with an atmosphere of exuberant discovery.

Judy Willis, M.D., *The Neuroscience of Joyful Education*, *Educational Leadership*, 2007.
